**Workplaces spend  
hundreds of hours  
connecting mentorship  
pairs**

# Solution

**Choose one platform** and allow employees to **sign up themselves**

→ **Platform: Slack**

A common way for today's organization's employees to communicate

→ **Pairings: Mentorship/mentee**

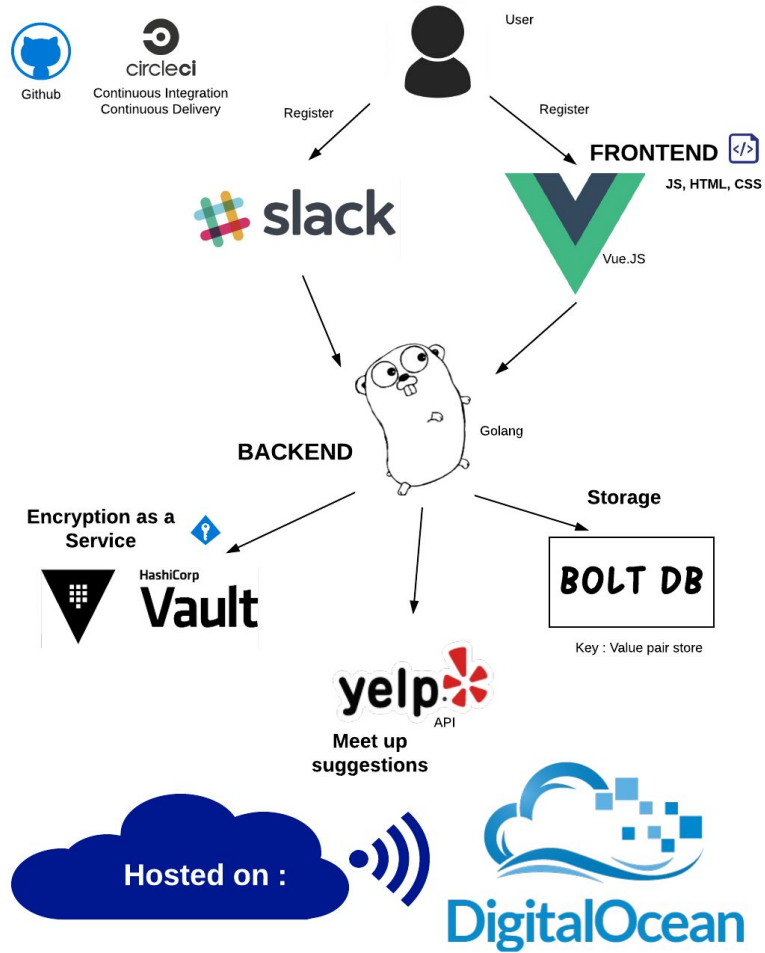

Employees sign up as mentors/mentees, and search for other mentors/mentees

→ **Enhanced: Tag yourself/others**

Do you have experience in marketing? Tag yourself!  
Are you looking to learn business? Tag your searches!  
**Pair'd** will take care of matches with preference to tags!

**What technology did we  
use to revolutionize?**

Welcome!

Do you want to be a:

Mentor

Mentee

Doesn't matter

**test** APP 7:59 PM Only visible to you

Ok, you are seeking a mentor

Done! You will be notified when a pairing is made!

To enhance your experience:

### Add some tags to yourself

`/listtags` returns a list of popular tags in your team

`/addmytags [business, software development, ...]` describe yourself!

`/addsearchtags [marketing, ...]` what are you looking for specifically?

`/clearalltags` clears your own tags and search tags

### Add meetup preferences

`/mydiet [none|vegetarian|vegan]` add dietary restrictions

`/myavailability [9AM-2PM] [Monday,Tuesday,Wednesday]` restrict meetup times

`/mylocation [Vancouver]` set your location for meetup suggestions

### To see these options again

`/paired` displays help message
